

AbilifyMyCite®
(aripiprazole tablets with sensor)
2, 5, 10, 15, 20, 30 mg

Getting started with the **ABILIFY MYCITE® System**

Please read [FULL PRESCRIBING INFORMATION](#), including **BOXED WARNING**, and [MEDICATION GUIDE](#).

Now that you and your healthcare provider have decided that the ABILIFY MYCITE® System is right for you, here's what will happen next

1. Your prescription will be sent in

An ABILIFY MYCITE® Kit is only available through a specialty pharmacy. Your healthcare provider will send your prescription directly to the pharmacy, but you may still get a call from the pharmacy if more information is needed.

Save the MYCITE® Team phone number, 844-MYCITE-4 (844-692-4834), in your contacts so you know it's them calling.

2. The pharmacy will check your coverage

You'll get a call from the pharmacy letting you know if the kit is covered by your health insurance plan.

- If coverage is approved, the pharmacy will start processing your prescription
- If coverage is not approved at first, the pharmacy will follow up with your healthcare provider's office and health insurance plan on options and next steps

3. Your prescription will be filled

When coverage is approved, the pharmacy will tell you how much an ABILIFY MYCITE Kit will cost based on what health insurance you have.

- Many patients covered on **commercial plans** will pay as little as \$5/month for the kit through an instant copay program*
- Under most **Medicaid** plans, the kit is covered, but may require some paperwork. For patients covered under **Medicare** and who qualify for Low Income Subsidy (LIS), copays for brand-name products are \$9.85/month or less†

When you approve the shipment of your kit and provide your payment information, the pharmacy will fill your prescription and send it to your healthcare provider's office. You can also have it sent directly to your home if you and your healthcare provider are comfortable with that arrangement. All prescription refills can be shipped directly to either your home or your healthcare provider's office, depending on what works for you. The specialty pharmacy will check in with you before sending your refill.

*Offer not valid under Medicare, Medicaid, or other federal or state program. Further conditions apply. Contact the specialty pharmacy for more information.

†Verified October 25, 2021.

4. Prepare for your setup appointment

Whether your kit is shipped to your doctor's office or your home, you will have support setting up the system. If your kit is shipped to the doctor's office, your healthcare provider will schedule an appointment with you to set up the ABILIFY MYCITE System. On the day of your appointment, you will need 2 things to get started:

- Your fully charged smartphone
- Your email address

You can download the MYCITE® App from your phone's app store before the appointment. If you decide to set up at home, you can call your Patient Experience Liaison (PEL)—a dedicated resource who you can reach out to directly for personalized support—to walk you through the process. Learn how to enroll on the back of this brochure.

If you need technical help, the MYCITE Team is there to answer any questions about the system. You can call the team at 844-MYCITE-4 (844-692-4834), 8 AM to 8 PM eastern time, Monday through Friday.

Not a real patient.

Need support?

Once your doctor has prescribed you an ABILIFY MYCITE® Kit, you can connect with a Patient Experience Liaison (PEL) for personalized support throughout your treatment journey.

Scan me and visit PELConnect.com or call 1-855-242-7787.

PELs are available 9 AM to 5 PM eastern time, Monday through Friday, excluding holidays.

The ABILIFY MYCITE® System was designed with the privacy of patients’ personal information in mind. Only people chosen by you may view your information, and you may change what information you want to share at any time. For more information about the system’s privacy requirements for you, your healthcare provider team, and your family & friends, please review the ABILIFY MYCITE System Terms of Use, Privacy Notice, and Authorization & Consent [here](#).
